

Parent of FCCC Enrollee,

As a licensed child care program, children enrolled in FCCC are required to have documentation of immunizations and a current physical on file.

According to the State Board of Education's Standards for Licensed Child Day Centers, standards 8VAC20-780-130 and 8VAC20780-140, proof of immunizations must be provided before a child enters the program and documentation of a current physical must be received within one month of a child entering care.

It is difficult for our partners at Fauquier County Public Schools to photocopy this information at the beginning of the school year. Furthermore, they cannot release this information without written permission and proof of identification.

We ask that you try to obtain a copy of the records from your doctor's office, however, we are appreciative that Fauquier County Public schools will assist you in getting this information if you are unable to get a copy of your child's health records.

To have Fauquier County Public Schools provide FCCC with the required information you need to complete the section below and give the completed form along with a copy of your drivers license to the staff at your FCCC site. It will take up to 5 business days for the schools to provide a copy to FCCC.

Please attach a copy of your photo identification to this form and return it to the staff at your FCCC site.

I give _____ permission to release a copy of
(School Name)

_____ 's health and immunization records to FCCC.
(Child's Name)

Parent/Guardian Signature
